To Our Many Customers.

IT is with pleasure that we present you with our Eighth Annual Catalogue, believing that our goods and prices for 1897 are sure to prove to our mutual advantage.

Although in our limited space we are unable to give but a vague idea of the immense stock we carry, still we believe that we present enough to show that we are able to compete with any house furnishing concern in New England.

If you wish for any information regarding Furniture, Carpets, Crockery or Stoves, that is not made clear in our Catalogue, write us, stating just what you want, and your correspondence shall receive prompt attention.

Our business on mail orders is constantly increasing, and many of our customers have found that they can do just as well by ordering by mail as though they came to our store.

A cordial invitation is extended to all to call and inspect our new Spring offerings, which for elegance, style and durability, we believe will be hard to equal.

For those who do not have the ready cash, our terms are most liberal, and many a home has been elegantly furnished by us on easy terms.

And you make a mistake if you buy anything in the way of Furniture, Carpets, Draperies, or Window Shades, before ascertaining the extraordinary inducements we are now offering.

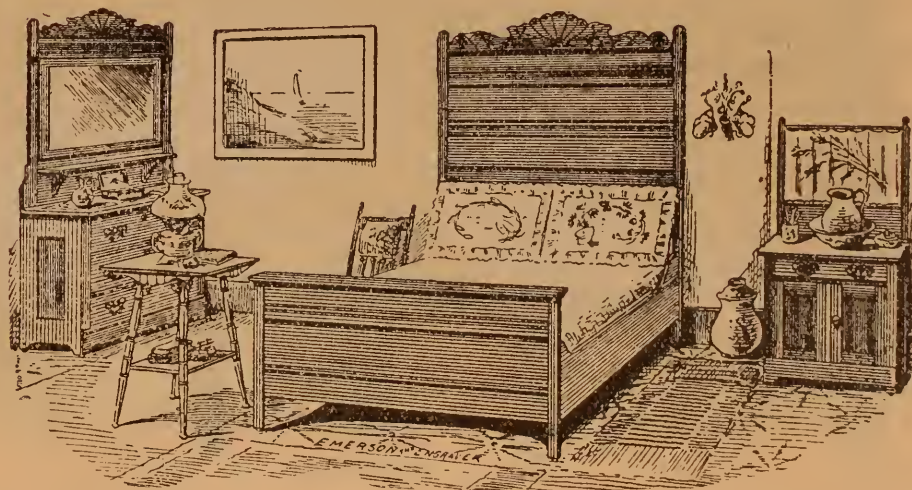

Cash purchases amounting to \$10.00 or over, we pack and deliver free to any railroad station in New England.

Yours truly,

EMERSON & SON.

Chamber Suites for 1897.

Designs are about the same as for the past two years. Although prices are lower than ever before known on Chamber Furniture, the finish has been much improved, and our suites from \$14.00 to \$18.00 are as well finished as suites we sold a year ago for \$25.00; while our suites for \$20.00 or over are as finely polished as a high-priced piano. Oak and ash are the popular woods for cheap and medium priced goods, while the finer styles are put in Curly Birch, Bird's Eye Maple and solid Mahogany.

OUR GREAT SUCCESS,

The "White Mountain Grand."

COLDEST AND CLEANEST.

We call attention to the following features of especial merit in our "White Mountain Grand" Refrigerators:

This Refrigerator has Duplex Circulation.

The inside can be readily removed for cleaning.

The waste pipe itself is easily removed for thorough cleansing and airing.

The Ice Grate takes out.

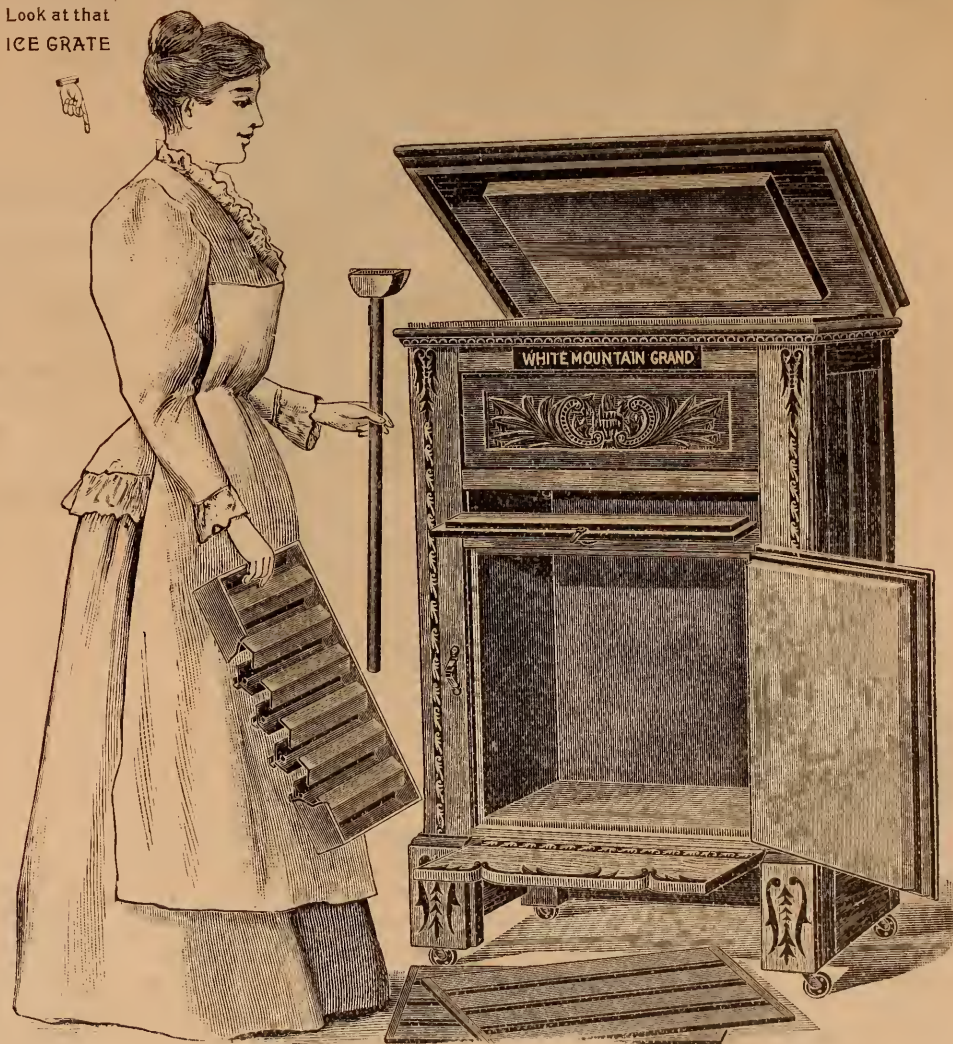

They are perfectly odorless.

The front base swings up, to facilitate the placing of the drip pan.

A REALLY "CLEANABLE" REFRIGERATOR AT LAST!

We claim that a more perfect Refrigerator or a handsomer Refrigerator is not to be had. The ice chambers and the provision chambers are large, and the outside decorations are truly beautiful. The panels, base and feet are richly carved in artistic and graceful designs. These decorations, together with our high finish, our bronze metal hinges, our new improved solid bronze surface lock, give the Refrigerators an elegant appearance. These all have double boxes, dead air space, patent trap, special non-conductor packing, overlapping doors, galvanized iron ice racks, improved galvanized shelves, patent castors that will not drop out, and are zinc lined throughout, the zinc being polished, and no wood being exposed in the interior.

"White Mountain" Ice Chests, Nos. 1 to 10.

The "White Mountain" Ice Chests are the handsomest and best in the market. They are made of well-seasoned PINE, nicely grained to imitate quartered Oak, and well varnished. They are constructed in the same manner as are our Upright Refrigerators, the labor and material being the same. They have thick heavy walls, galvanized iron shelves and ice-racks, are lined throughout with zinc and mounted on castors.

Style of "White Mountain" Pine Refrigerator, Nos. 101 to 106.

The illustration above shows our single door "White Mountain" Refrigerator. These are made from the best quality of well seasoned Pine lumber, nicely painted and grained in imitation of quartered Oak, and are well varnished. The zinc is **polished**, and **no wood is exposed in the interior**. These Refrigerators are as low in price as any in the market, and yet they are well and substantially made. Their food-preserving qualities are good. In fact, they will give satisfaction every time. We use on them our new and convenient surface lock, made from handsomely bronzed metal. The hinges are of the same material, large, strong and of pretty design.

FIBER CARPET,

The twentieth century fabric, is a perfect Sanitary Floor Covering, made on special looms under exclusive patent rights. Its durability is astonishing—its designs rich and varied. It is soft, pliable, and odorless, and should be sewed, tacked, and turned under like ordinary wool carpeting. It has no nap to catch dust and dirt, and will not yield lint and shoddy when swept, nor break and splinter. An absolute non-conductor of heat or cold. Bugs will not eat it. Made in a great variety of patterns and colorings.

One of our many patterns of Fiber Carpet.

Richmond Ranges

Have been sold by us two seasons in Milford. We decided, after careful investigation, that it was the stove for us to sell, and our experience has borne out our judgment of them as the best line of Ranges made for actual use.

The Richmond Company use nothing but new Pig Iron in their castings, and all their work is fitted in the very best manner, making them the finest constructed line of Ranges in the market.

During the past three years the Company have brought out three new patterns, all shown in this catalogue. Our No. 12, a Range within the reach of everybody in price, and guaranteed fully; No. 8, a heavier, larger style, and fitted for hard and long usage; and No. 2, described on page 60.

We also have cheaper Richmond Ranges, as low as \$12.50.

Any of these patterns can be had with or without Water Fronts, Tanks and Shelves, and all are fitted with the Richmond Oven Ventilator, making them the best baker made.

We carry a full line of repairs and can furnish required parts at any time.

Every Stove sold by us is guaranteed for a year; any breakage occurring within that time is made good, at our expense.

No. 12.

This pattern was brought out in 1896, and for its price is the largest and finest working Range made; is not as large or heavy as No. 2 or No. 8, but will do equally good work in baking.

PRICES:

18 in. Oven, \$20.00; Tank, extra, \$6.00.

20 in. Oven, \$25.00; Tank, extra, \$7.00.

Shelf, extra, \$3.50.

Richmond Ranges.

No. 8.

This pattern of Range was introduced by us in 1895, and has been the seller in our line. We have sold it into nearly every town in Hillsboro County, and can refer you to some neighbor of yours who has it in use.

PRICES:

18 in. Oven, \$25.00,

Tank, extra, \$7.00.

20 in. Oven, \$30.00,

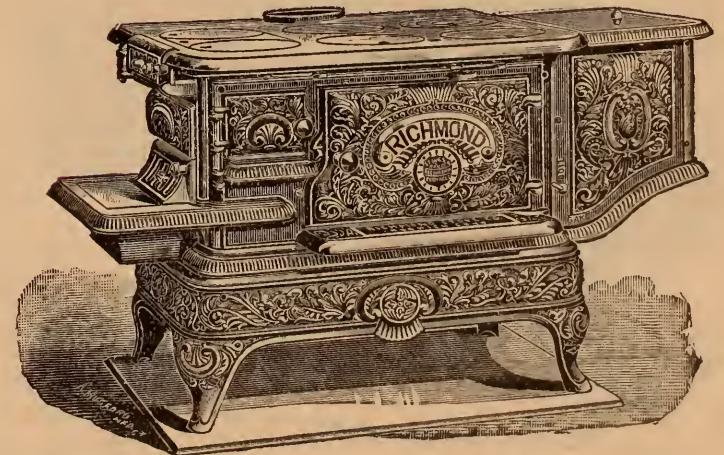

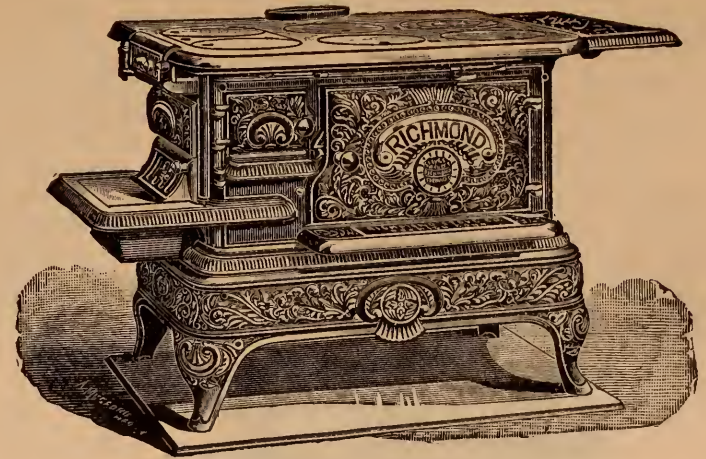

Tank, extra, \$8.00.

Low Shelf, extra,

\$3.00.

High Shelf, extra,

\$4.50.

RICHMOND RANGES. No. 2.

For two years past we have been able to show a new pattern of Richmond Range in our catalogue; this is no exception, and on this page we present what we believe to be the finest Stove made in New England. It is a brand new pattern, having all the improvements suggested by many years of experience in Kitchen Range building. The Stoves of this pattern already sold by us have earned some of the very finest recommendations.

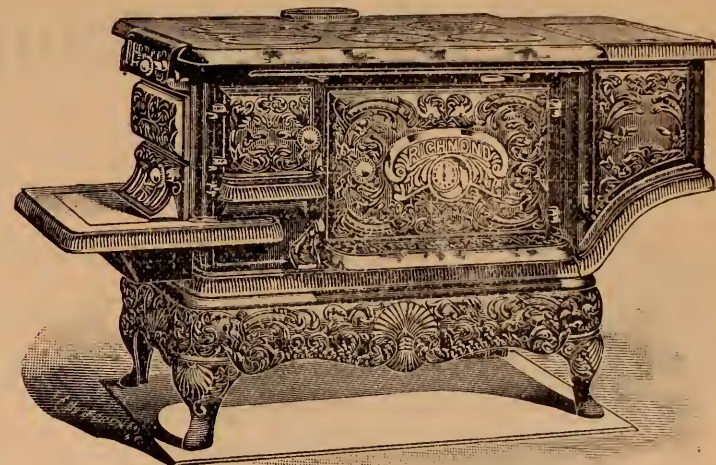

This pattern is the largest and heaviest Stove made by the Richmond Company; it has a square oven, as large on top as at the bottom, very large fire box and ash pan; large, deep flues, insuring a good draught around the oven; has the Richmond Oven Ventilator, insuring an even bake at any point on oven bottom or grate. Is made in two sizes, 18 in. and 20 in. oven, with or without tank, and low or high shelf.

This is an exceptionally fine Range to use with set tank for hot water, as Water Front is of unusual size, insuring a free circulation of water and quickly heating the same.

The Oven Indicator or Thermometer, is a feature of this pattern, allowing the housekeeper to know at any time just what is being done in the oven without opening the door. By its use all kinds of fancy cake can be successfully baked. This Indicator is so made that it will not get out of order, and is a great addition to the Range.

We believe this to be the very finest working Range made and give our unqualified guarantee of its being in every way satisfactory.

Prices quoted upon application.

RICHMOND PARLOR STOVES

Are "heaters" and economical of fuel, and at the same time are handsome. Our sales for the season of '96 and '97 were more than double those of the previous year, which alone speaks volumes for the merit of the goods. We show the two best selling patterns on this page.

No. 7 is a medium-priced Heater, in three sizes; has back pipe, swing top, draw centre grate, large ash pan, clinker door, and nickel foot rails. Is a satisfactory all-round Stove, easily cared for, always liked. Is a much handsomer stove than the cut shows it to be.

No. 5 is the seller of the line; has all the features of No. 7, and in addition a large-sized Oven in the top, with open damper to allow the heat to pass out into the room when not in use. A large flue under the ash pan, heating the bottom as well as the top and sides of the stove, patent gas burner, and is the handsomest stove made. The small size is sufficient for one room; the medium size for a large room or two small ones; and the large size will heat a large office, two large or three medium sized rooms.

Wherever we have sold the stove, it has made us more customers. We believe it to be the easiest cared for of any coal stove.

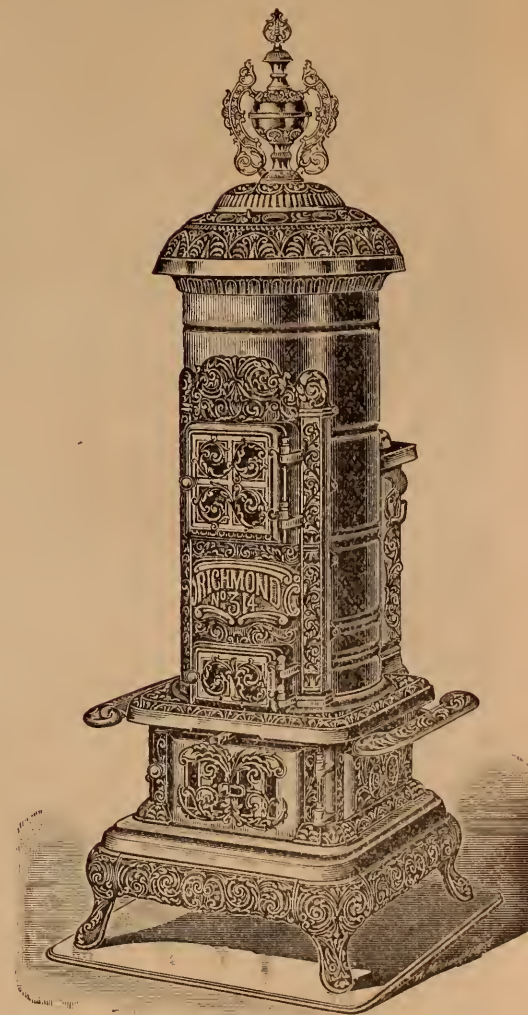

No. 7.
